1. Introduction
I'm **Faudhia Makosa**, a **UI/UX and Graphic Designer** who creates websites, apps, and visuals that are easy to use and visually appealing. I focus on making designs that help people navigate smoothly while enjoying the look and feel. My goal is to turn ideas into designs that work well and leave a positive impression.

2. Work Experience
I have experience in **UI/UX design, website design, graphic design, and multimedia content creation**. My work includes creating marketing materials, event posters, branding, interactive user interfaces, and **various websites** for both personal projects and clients. I work closely with teams and clients to make sure every design meets user needs and follows modern design trends.

3. Studies
I'm studying for a **Bachelor's degree in Multimedia** at the University of Dodoma, focusing on **UI/UX design, graphic design, and multimedia production**.
I have also completed three certificates on Coursera: **Foundation of User Experience (UX) Design**, **UX Design Process: Empathize, Define, and Ideate**, and **Building Wireframes and Low-Fidelity Prototypes**. These have given me a solid understanding of user-centered design and the ability to create engaging and impactful content.

4. Technical Skills

- **UI/UX Design:** Figma, Adobe XD, Wireframing, Prototyping

- **Graphic Design:** Adobe Illustrator, Adobe Photoshop, Branding

- **Motion & Multimedia:** Adobe After Effects, Adobe Premiere Pro

- **Other Skills:** Creative problem-solving, teamwork, and communication
